

Case Studies

Whether used inside or outside the classroom, case studies allow students to practice applying their knowledge in a clinical context.

Accelerate Student Learning

Our cases are designed to be implemented within existing clinical courses to provide students with contextualized examples to help them build linkages between the acquisition and application of knowledge. Cases can be used to support both in-class discussions or homework assignments.

What's Included

This large collection of interactive case studies offers instruction on a wide variety of veterinary disciplines:

- Anesthesiology
- Cardiology
- Dentistry
- Dermatology
- Internal medicine
- Emergency medicine
- Hematology
- One health
- Orthopedics
- Parasitology
- Primary care
- Public health

Contact Time: Each case study provides 0.5 – 1.0 hour of instruction.

Assessment: All case studies come with assessment packs that can be utilized to support formative or summative assessment of students.

Audience & Delivery

Suitable for veterinary students at any level of study.

Web-based HTML5 content streams directly to students via password protected learning management system. Runs on PC, MAC, and mobile devices.

Ordering

License desired case studies in blocks of 3, or purchase the entire library for a discount. Call 1-979-458-8450 for pricing.
