# Acute Kidney Injury
ADAPTIVE CASE STUDIES

In these resources, learners are assigned cases based on prior performance as they work through four levels of case studies on diagnosing and managing feline and canine acute kidney injury.

Accelerate Student Learning

This collection of case studies is designed to help veterinary students learn how to recognize acute kidney injury based upon patient assessment, laboratory results, and imaging. Using real-world scenarios, students will determine a management plan with or without definitive diagnoses and develop a diagnostic and treatment plan for the patients. Learners will progress through four levels of case studies, with each case specifically assigned to the learner based upon their previous case performance. The adaptive nature of this course provides learners with an individualized learning path to diagnose and manage feline and canine acute kidney injury.

What's Included

Adaptive Case Studies

Acute Kidney Injury
(Contact time: 4.0 hours)

Instructor Tools

A Course Welcome page guides learners on how to navigate through the adaptive case studies and explains how mastery of key concepts is evaluated.

Assessments

Each case study provides students with opportunities to apply their knowledge during the scenario and receive feedback on their performance. A summative score will be calculated for each case study that will be used to determine which case study is made available next to the learner.

Audience & Delivery

Designed to complement: Small Animal Medicine, Nephrology, and Clinical Rotations

Web-based HTML5 content streams directly to students via password protected learning management system. Runs on PC, MAC, and Tablet-devices.

About the Authors

How to Access this Content

1

Fill out our Contact Form
If you are interested in accessing any of the Center for Educational Technologies' educational resources, please fill out the form at **www.tamucet.org/contact**.

2

Connect with our Team
After receiving your information through the Contact Form, a member of the Center for Educational Technologies team will connect with you to provide more information and give you access to a demo of the requested resources.

Facts About our Educational Resources:
- Educational Resources are available for license via a 12-month subscription license agreement for an unlimited number of faculty and students.
- All resources are web-based, managed through the Center for Educational Technologies' learning management system, and accessible across multiple devices. No download necessary!

3

License Agreements and Payments
At the end of the demo period, a license agreement would be signed by both institutions and payment would be submitted.

FAQs About License Agreements and Payments:

Q: What is a subscription license agreement?
A: A legal agreement between two parties to access learning modules that Texas A&M owns the intellectual property to. All learning modules are licensed for a set fee as outlined on the tamucet.org website.

Q: How long is a subscription license agreement?
A: License agreements are for 12-months.

Q: How do I renew a subscription license agreement?
A: Annual renewal reminders are emailed to licensees prior to the license agreement termination date. Licensees may also request renewals via email to the Center for Educational Technologies at **cet@cvm.tamu.edu**

Q: What happens if I choose to terminate my subscription license agreement prior to the end of the 12-month period?
A: A thirty (30) days written notice prior to the end of the then-current term of its intent not to renew is required.

4

Set-up and Support
The Center for Educational Technologies will set up your unique institution URL with your custom branding and trademark. Login credentials and account setup instructions will be provided for your students and faculty. HelpDesk Support will be provided for the length of the license agreement
