

Explore an Exciting Library of Complimentary Stem Cell Slideshows!

Roy Pool, DVM, PhD, Clinical Professor, Veterinary Pathobiology, and the Department of Small Animal Clinical Sciences in the School of Veterinary Medicine and Biomedical Sciences at Texas A&M University, want to share an extensive group of Stem Cell PowerPoint slideshows with you.

The Stem Cell library brings together images, radiographs, and commentary that Dr. Pool has accumulated for decades. View the slideshows to see scores of examples of blastulas, MSCs in limbs, gap healing, bilateral hip dysplasia, osteoblastomas, carcinosarcomas, lymphosarcomas, epithelioid osteosarcomas, synovial tumors, synovial chondromas, etc. Review the extensive collection, download resources of interest, and use these resources in your own lectures and presentations at: <https://www.veteducator.com/stem-cell-library>.

Contact the Center for Educational Technologies (CET) Help Desk at cethelpdesk@cvm.tamu.edu with any questions or for technical assistance.
