

# The Center for Educational Technologies

The Center for Educational Technologies (CET) specializes in developing education programs, trainings and outreach activities which compliment technical experts' research activities. Many external sponsors request that researchers' scientific findings be disseminated through education and outreach programs. This is where the CET's faculty can step in. By partnering with the CET, researchers can focus on their technical expertise, while CET faculty translates your research into training programs and disseminating findings to the general public. The CET offers online hosting services for websites and virtual learning. The CET has a state-of-the-art video production studio on campus, video equipment to film on-location, and equipment to film on-the-go, such as with GoPros. The CET has worked with industry, academic and government research partners on both public and private grants. For more information go to: [www.tamucet.org](http://www.tamucet.org)

*CET launched new modules on foreign animal disease including New World Screwworm.*

*CET developed custom web-application for SPS regulators to audit SPS measures for monitoring compliance.*

*CET created interactive microlearning activities for Department of Justice.*

## Research

\$53,169  
(\$463,471 terminated due to federal restructuring)

## Instruction

Held 35 trainings and developed 24 educational resources

## Entrepreneurship

~\$204K in new service contracts and license agreements

The CET works collaboratively with other university entities, state, federal, and global agencies, other colleges of veterinary medicine, non-governmental agencies, and industry to provide access to innovative and engaging educational resources any-time and in any place. The approach has led to the CET's international reputation for excellence in developing curricula programs and outreach programs.

## Key Partners & Institutions Using CET Resources

- 3D MediaVision
- Auburn University
- College of Veterinarians of Ontario (CVO)
- International Council for Veterinary Assessment
- Kansas State University
- Leader Healthcare Group
- Lincoln Memorial University
- Louisiana State University
- Michigan State University
- National Institutes of Health
- Oklahoma State University
- Prairie View A&M University
- Ross University
- Tarrant County, Texas
- Texas A&M University Division of Student Affairs
- Texas A&M University College of Veterinary Medicine
- Texas A&M University Vice President of Research Office
- Texas FilmWorks, a TexAgs Company
- United States Department of Justice
- USDA-APHIS
- USDA-FAS
- USDA-NIFA
- Université de Montréal
- University AVMA Trust
- University of Georgia
- University of Guelph
- University of Illinois
- University of Minnesota
- University of Missouri
- University of Prince Edward Island
- University of Tennessee - Knoxville
- University of Wisconsin-Madison
- VetEducator
- VetFolio
- Virginia-Maryland College of Veterinary Medicine
- West Texas A&M University
- Western University of Health Sciences
